

Self Learnable Digital Labs

We are the pioneers in developing digital labs with a set of modular courses to develop critical skills like English Language, Communication and Aptitude. Our labs have evolved after extensive R&D of the subjects and by adopting a scientific and psychological approach to suit Indian students. All our digital labs are Globarena's Intellectual Property . Currently, our digital labs are as follows:

→ **English Lab™**

→ **Career Lab™**

→ **Aptitude Lab™**

→ **Teacher Console**

Note: Our products add value during the inspection by NAAC, AICTE, UGC and Universities

Digital Lab's Highlights:

- Interactive learning and multimedia enabled (voice, picture, animation)
- Perfect for Indian students (designed keeping in mind Indian students)
- Quick delivery and installation at college
- Support (training, installation and troubleshooting both remote and onsite)
- Intellectual property (IP) and patented products

Our digital labs are very effective in preparing students to clear the recruitment process followed by most corporates. Depicted below is the benefit of our Digital Labs to students in the recruitment process:

ENGLISH LAB

English Lab is designed to enhance students' language skills, communication skills, vocabulary, listening skills, pronunciation accuracy and eliminate MTI. English Lab is a fully computerized client server application that can be run in LAN. It has an easy to use console displayed on the desktop of the server to facilitate the faculty to conduct the course. Students access the courseware through client systems.

English Lab has the following modules designed to enhance the language skills of students to make them successful in their careers.

- **Communication skills** are comprehensive language development programmes covering reading, writing, basic vocabulary and grammar.
- **The listening skills** section gives students a thorough grounding in many aspects of listening and listening comprehension. This also enhances students listening Skills.
- **The Vocabulary module** trains students in essential vocabulary in an easy and fun way. Students need not learn words by rote anymore. A unique methodology is used to ensure that students learn words and retain them. This 2000 word vocabulary builder would be of special interest to students preparing for **GRE**
- **Phonetics** trains the students in English sounds, pronunciation, stress, intonation, etc. It covers vowels, consonants, diphthongs, inflections, intonation, stress pattern and rhythm, ear training, common errors in English, correct pronunciation and phonetic symbols.
- **Conversation** - Sample conversation based on real life situation

CAREER LAB

In today's competitive environment, besides a sound domain knowledge, career skills, communication skills, soft skills, and basic computer skills are most sought after by employers in a prospective employee. Besides enhancing employability and career prospects of students, these skills are essential in day-to-day life.

Career Lab is designed to impart crucial career skills to students to make them confident and successful in career, academics and in life.

TEACHER CONSOLE

The Teacher Console is designed to provide flexibility to the facilitator conducting the programme i.e., adding new content, monitoring students and providing timely help, etc.

Salient features of the Teacher Console

- Desktop sharing
- Video - Audio Broadcast
- Communication with students (through Audio Chat)
- Add resources like video clippings, PDFs, HTML
- Create Customized Lessons
- Customized lesson scheduling
- Review student performance
- Notice board

APTITUDE LAB

Aptitude Lab is designed to enable students clear the Aptitude tests conducted by public and private sector companies to ensure success in recruitment tests.

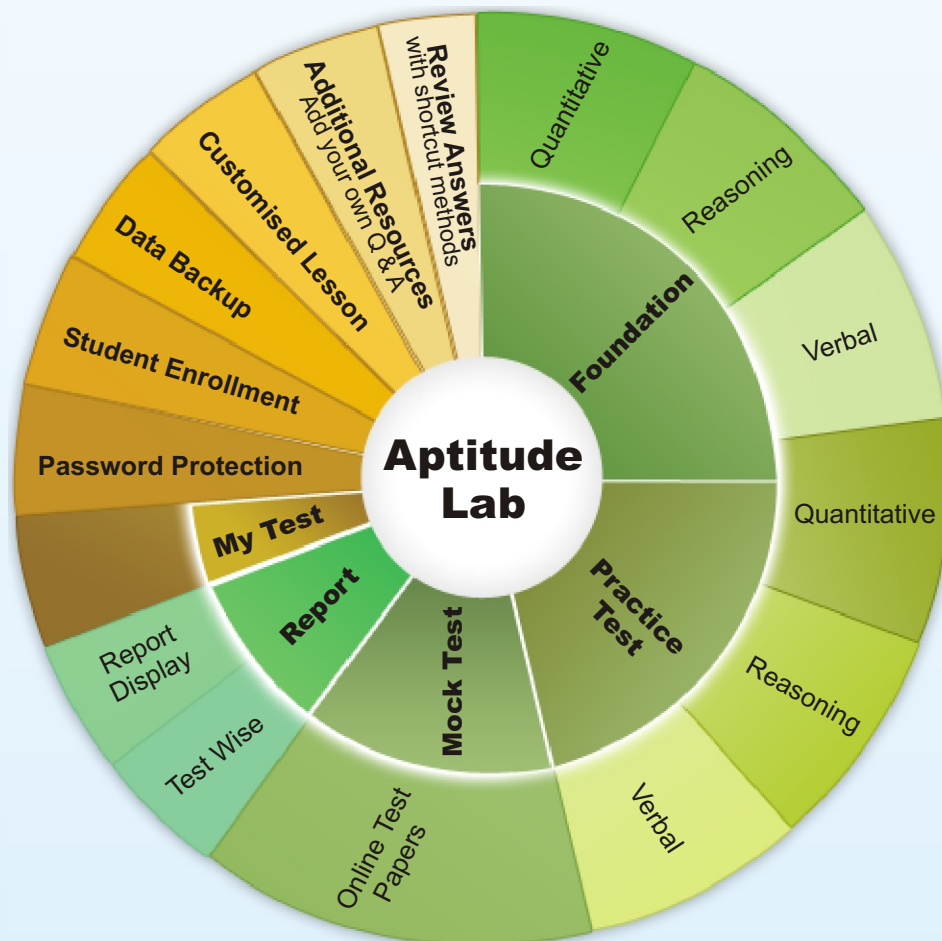

Aptitude Lab is a reliable, valid, structured and effective source for students to depend upon and prepares them to solve the problems in less than 30 seconds.

Aptitude Lab provides abundant practice for students to:

- Learn the strategies on how to approach the test
- Learn and practice short methods / techniques for solving the questions
- And, more importantly, prepare for company specific test pattern

The above is accomplished through the following modules:

- **Foundation:** Important concepts for strengthening the basic concepts and fundamentals. A summary of each topic along with short cuts and formulae wherever applicable are also provided in the product with an easy and structured approach
- **Practice tests:** In this section students can practice the tests topic-wise to perfect their strategies
- **Mock Tests:** Students can take unlimited number of full MOCK Tests, exactly on the testing patterns of various companies like MAHINDRA SATYAM, CTS, TCS, WIPRO, INFOSYS, INFOTECH, KANBAY, CARITOR, CADENCE, ACCENTURE, POLARIS, CONVERGYS
- **My Test:** Students have the option to choose the topics and the number of questions from each topic to be included in the test
- **Reports:** Students can access reports on their progress on the tests taken and those yet to be completed and their score in test and time spent on foundations.

8 Commandments
